13. Declaration:

I/We hereby agree :

- a) To take supply of electrical energy from the BEST Undertaking at the aforesaid premises situated within its license area.
- b) To be bound by the MERC (Electric Supply Code & Other Conditions of Supply) Regulations, 2005 and as amended from time to time and provide the necessary security deposit as specified therein.
- c) To be bound by the provisions of the Power Purchase Agreement with BEST Undertaking in accordance with MERC (Electric Supply Code & Other Conditions of Supply) Regulations, 2005, Clause 6.
- d) To pay for the said supply at the prevailing tariff rates & also to pay the charges based on the Schedule of Charges as approved by MERC for BEST Undertaking from time to time. Clear all bills and dues of BEST Undertaking as and when demanded.
- e) In case of any objection or communication from statutory authority about any breach / violation of statutory requirement by the owner or occupier of the building, the BEST Undertaking reserves the right of disconnecting the electric supply to such building with due notice.
- f) To submit Declaration / Undertaking in prescribed format as provided in MERC practise directions under Electric Supply Code Regulations, 2005 Order dated 25.03.2019, Clause 2.1.
- g) To use the energy for the purpose mentioned herein above. If at any time energy supplied to me wholly or any part thereof is used by me for any other purpose, I shall be liable to be charged for the whole of the energy registered as consumed in accordance to Section 126 of the Electricity Act, 2003.
- h) Not to sell energy purchased from the Undertaking to a third party.

I/We understand that for the load less than 50 KW (67 HP) filled application along with the "Declaration / Undertaking" shall constitute an Agreement with the Utility for supply of electricity under prescribed tariff category upon sanction and installation of meter.

I/We understand that for load equal to and more than 50 KW (67 HP) the application to be filled along with the "Declaration / Undertaking" and the "Terms and Conditions of Agreement" for HV/LV consumers, shall constitute an agreement with the utility for supply of electricity under prescribed tariff category upon sanction and installation of meter.

I/We have read and agree to the clauses that are included in Brihanmumbai Electric Supply and Transport Undertaking's "Terms & Conditions of Supply" and "Schedule of Charges" for the supply of electric energy and I/We also agree to pay for the electricity at the tariffs approved by the Commission from time to time.

Annexure - II

Declaration / Undertaking by the Applicant for the purpose of Electric Supply

THAT the Applicant is a lawful occupant of the premises where electricity connection is required located at (hereinafter the "Premises").

THAT the Applicant has requested the licensee to provide electricity connection at the above mentioned Premises in the name of Applicant for the purpose mentioned in the application form.

THAT I, the Applicant hereby agree and undertake:

1. **NOC of Owner / Co-owner :**

That in case the applicant is not the owner/sole owner of the premises, no objection certificate for seeking electricity connection from the legal owner/co-owner has been obtained by the Applicant.

2. **Indemnity :**

To indemnify the licensee against all proceedings, claims, demands, costs, damages, expenses that the licensee may incur by reason of a fresh electricity connection given to the Applicant.

3. **Statutory Requirements :**

That applicant has complied with all requirements under all the statutes in force and the applicant himself/herself shall be held legally responsible for any issue arising out of any such non compliance for which licensee may initiate action under the law or disconnect electric supply to the premises.

4. **Test Certificate :**

That all electrical works done within the premises are as per Central Electricity Authority (Measures relating to Safety and Electricity Supply) Regulations, 2010 as amended from time to time. That the internal wiring at the premises has been tested by a Licensed Electrical Contractor having valid license issued by Licensing Authority, Government of Maharashtra and the test certificate is available with the Applicant for the applied load and shall be produced when asked for by the licensee or by any other authority under the law.

5. **Building Approvals :**

That the Premises/building/structure has been constructed as per prevalent building Bye- Laws and the total height of the Premises/building/structure-

(i) does not exceed 15 (fifteen) meters on the date of seeking electricity connection.

Or

(ii) is more than 15 (fifteen) meters and has obtained valid Fire Clearance certificate which is available with the Applicant.

6. **Lift-Fitness Clearance :**

That if there is a provision of lift in the Premises, the Applicant has obtained the valid lift fitness from the Electrical Inspector for the lift in the said Premises and the same is available with the Applicant.

7. **Correct Tariff Category :**

That the applicant has applied for the correct category of tariff applicable for his usage as per current approved Tariff Schedule of the Distribution Licensee. The Applicant holds all the relevant documents/approvals specified under applicable statute/s with him.

8. **Availability of Documents :**

The applicable documents indicated at various points are available with the Applicant and can be inspected by the Distribution Licensee at any time. That the Applicant will provide a copy of any of above applicable documents to the Distribution Licensee pursuant to request from any external Government agency, judicial forum or any other authority empowered under statute seeking such information. In case of failure to produce any applicable document, the Distribution Licensee may disconnect the connection granted under this declaration without any notice.

9. **Information accuracy & compliances :**

In order to facilitate faster release of connection by the licensee, the applicant/consumer agrees that all the details mentioned in the application form are accurate and all applicable customer-end obligations (e.g. Documentary and Payment compliance, Site readiness, Way-Leave permits) are complete and complied in all respects, at the time of applying for new electricity connection, through online / offline mode. In case any of these requirements are not ready, or in case of an objection, the licensee reserves the right to cancel such application.

10. **Correctness of Documents :**

The applicant shall be solely and exclusively responsible for the genuineness and correctness of the document/s submitted by him in support of application. In case of any fraudulent and/or fake and/or forged and/or incorrect and/or invalid document submitted by the applicant/consumer, then the applicant/consumer shall be solely and exclusively responsible for the criminal proceedings and/or any court proceedings initiated and/or any dispute which arises any time in future and the utility and/or its successors, assignees and/or any employee thereof, shall not be responsible for the same in any manner whatsoever.

11. **Safe Industrial Practice :**

That Applicant's industry/trade has not been declared to be releasing obnoxious hazardous/pollutant by any Government agency and that no orders of any court or judicial authority would be breached by running of Applicant's industry/trade or granting any electricity connection to the same. The Applicant indemnifies and keeps indemnified the Distribution Licensee against any loss of any nature on this account.

12. **Fault Free wiring & installation :**

The Applicant further agrees to indemnify and hold harmless, the Distribution Licensee, and/or its successors and/or its employees, in case of any injury or incident on account of any fault in electrical work in the Premises and from point of supply to the Premises. The Distribution Licensee shall not be held responsible/liable for any mishap or incident occurring at the Premises or from point of supply to the Premises on account of any faulty/defective/inferior quality wiring/installation, right from the time of energizing the new electricity connection. On occurrence of such incident, Distribution Licensee may disconnect the Applicant's supply, if continuance of supply to such installation is threat to the life or property. Such disconnected supply shall be reconnected only after rectification of faulty installation and submission of test report from Licensed Electrical Contractor.

13. **Damage to Utility's assets :**

The applicant further agrees to bear the expenses towards repairing/replacement of utilities assets, in case there is sufficient proof that the damage/fault has occurred due to faulty electrical work/wiring in his premises and applicant is unable to provide valid test reports to the utility's satisfaction.

14. **Payment of charges :**

The Applicant agrees to pay the Distribution Licensee the approved connection charges and applicable security deposit directly or through the first electricity bill and undertake to pay the same within the due date.

15. **Payment of Bills & charges :**

To pay the electricity consumption bills and all other charges, at the rates set out in the licensee's Tariff Schedule and the MERC approved Schedule of Charges. as may be in force from time to time, regularly, as and when the same becomes due for payment.

16. **Security Deposit :**

To deposit the additional security deposit (as applicable) from time to time, based on the prevailing Orders/rules, directions and Regulations of the Commission.

17. **Payment of Arrears :**

The Applicant/consumer declares and confirms that there are no arrears towards the energy or related charges outstanding in his/her name and/or on account of the said premises. In the event of aforesaid declaration/undertaking given by the applicant/consumer is found false in view of any pre-existing liability, the applicant/consumer shall willfully, without demur pay such amount on demand. The Consumer/applicant shall be duty bound to extend full co-operation to the licensee while determining and/or identifying the arrears, if any of the premises or account no, within a period of 60 days. The applicant/consumer shall make payment of the said arrears immediately on demand.

18. **Meter Cabin :**

Meter cabin should be located in such a manner that BEST staff has 24x7 access to it. Its door shall be made of fire proof material and shall open to outside. Metering installation shall be protected from excessive dust and moisture, exposure to direct sunlight, rain and water seepage and vermin. The applicant/consumer shall ensure that temperature within the meter room shall not be more than 10°C, above ambient. It should not be in proximity of machineries, heating devices, equipment generating high vibration or magnetic fields and areas prone to fire and toxic hazards.

19. **Meter Position :**

Meters shall not be located at an elevated area or a depressed area that does not have access by means of a stairway of normal rise. The meters shall not be installed below/in the stair case or in common passage or lobby. Meters shall be installed between 3' to 6' from ground level for ease of meter reading. The access to meter room shall be free from any obstacles and safe for human escape during an emergency. The licensee shall be free to install meters for the other consumers or give electric supply from the same Meter Cabin.

20. **Meter Board & wiring :**

Board wiring shall be carried out preferably on Fire retardant plywood, complying IS 5509. In case of non availability of FR plywood, marine plywood complying IS 710 can be used. The plywood shall be of 19 mm thickness and the same shall be provided by an applicant. Typically plywood is available in following sizes (7'x4', 7'x3', 8'x3', and 8'x4'). IS mark is printed on the center of either face of the ply for identification.

21. **Abiding by provisions of Law :**

To abide by the provisions of the Electricity Act, 2003, all applicable laws, conditions of Supply/Tariff Orders and any other Rules or Regulations as may be notified by the Commission/Authority/court/Tribunal, as applicable from time to time.

22. **Dues / Outstanding :**

That licensee shall be at liberty to adjust the electricity consumption charges due/outstanding along with any other charges against the Consumer Security Deposit paid by the Applicant, in the event of termination of the agreement prior to expiry of the contracted period or in case of any contractual default as per provisions of regulations/rules/orders/directions of the Commission.

23. **Accessible space for meters :**

That as per MERC(Supply Code and Performance Standards) Regulations. 2005 as amended from time to time, Applicant shall provide suitable and adequate space for installation of the meter/electrical equipments where the licensee may have ready access to the same.

24. **Clear access to meters :**

To allow clear and un-encumbered access to the meters for the purpose of meter reading and it's checking etc.

25. **Unhindered Right of Way :**

-The Applicant shall permit the utility, unhindered Right of Way (ROW) to access it's equipment and work its premises in accordance with the provisions of regulations/rules/orders/directions of the Commission and shall provide Way Leave for utility's metering units/system all throughout the Premises in its favor. Utility's personnel along with vehicles and cables and/or apparatus shall require a permanent Right of Way over the above mentioned land without any further consent (for now and in future), towards laying, strengthening and maintaining of electrical network. If the land covered by way leave permission is sold, leased, rented or otherwise disposed off, while entering to such a transaction, the applicant/consumer shall ensure by necessary contract that the terms of this contract/form will be abided by the other parties, to the said transaction.

26. **Interconnection with outside network :**

The applicant agrees and confirm that utility shall have full rights to optimally utilize its assets (Substation/Pillars) in customer premises and shall not object to laying outgoing feeders (LT/HT) from their premises as the same arrangement is for making interconnection with outside network which shall further help in arranging alternate supply in case of break down on mains.

27. **Security Deposit by Bank Guarantee :**

The Applicant/Consumer may opt to pay the Security Deposit by way of Bank Guarantee, for Single Meter Commercial/Industrial LT supply applications, with load requirement above 50 KW. However, no interest will be paid on Security Deposit paid by way of bank guarantee.

28. **Disconnection under default :**

That the Applicant would let the Distribution Licensee disconnect the electric connection under reference, in the event of any default, non-compliance of statutory provisions and in the event of a legally binding directive by Statutory Authority(ies) to effect such an order. This shall be without prejudice to any other rights of the licensee including that of getting its payment as on the date of disconnection.

THAT the Applicant has complied with all requirements under all statute for the time being in force and the Applicant himself/herself/itself shall be held legally responsible for any issue arising out of any such noncompliance for which the licensee may initiate action in accordance with applicable law.

THAT in furnishing the present 'Declaration/Undertaking', the Applicant has clearly understood that should any of the statements in this declaration prove to be false or incorrect at any later stage, the licensee shall be legally entitled to disconnect supply to the premises without any prior notice and proceed to adjust electricity supply dues payable by the applicant against consumer security deposit and/or recover the same in accordance with Law.

Name of the Applicant: _____

Requisition No. _____ Dated _____

I, the above referred applicant, agree and accept these conditions in "Declaration / Undertaking" with complete awareness about safety provisions in Law and promise to abide by them in word and spirit.
